---

The internet searches for “[used BMW London](#)” return a non-exhaustive list of second hand car dealers, car supermarkets and independent retailers. It is so difficult to know who to deal with when considering my next vehicle purchase. I bought my current car, a BMW 320 Sport Coupe from Big Motoring World in Kent. I have been really happy with my car but drive around 40,000 miles per year and want a Diesel Saloon up to twelve months old. I will also consider Mercedes Benz as I do like the design of the new E Class but I really want to test drive this against a 5 Series and see which offers me more comfort and interior space.
